Some remarks about additive and multiplicative functions. (In English)

Bull. Am. Math. Soc. 52, 527-537 (1946).

The author extends his previous work on the distribution of values of multiplicative arithmetical functions (this Zbl 018.29301; Zbl 022.00903 and Zbl 022.01001). Many striking results are obtained.
