Zbl 486.05002
Erdős, Paul
Solved and unsolved problems in combinatorics and combinatorial number theory. (In English)
Combinatorics, graph theory and computing, Proc. 12th Southeast. Conf., Baton Rouge 1981, Congr. Numerantium 32, 49-62 (1981).

[For the entire collection see Zbl 483.00001.]

In this report I discuss as usual some combinatorial problems which interested meand where some progress has been made. I do not claim that I give a survey of the subject but restrict myself to my problems or to problems which interested me during my very long life.

Classification:
05-02 Research monographs (combinatorics)
11B75 Combinatorial number theory
05Cxx Graph theory
05A15 Combinatorial enumeration problems
00A07 Problem books

Keywords:
problems
