INSTRUCTIONS FOR AUTHORS

Manuscripts may be submitted electronically, either on a MS-DOS disk or by e-mail (to make sure your message arrives safely, leave no lines longer than 80 characters). Papers should be in LaTeX 2_ε format, using the standard article document class., i.e.,

```
\documentclass{article}
\usepackage{}          % Please include any local package you are using
\author{}              % Here insert the authors name and the address
\title{}               % Here insert the title
\date{}                % this must be left empty
\begin{document}
\maketitle
\begin{abstract}
...............
...............
\end{abstract}
.................
.................      % Here comes the body of the text
.................

\begin{thebibliography}{11}
\bibitem{}
\bibitem{}
....................
\end{thebibliography}
\end{document}
```

The manuscript should also contain one or more key words which describe the important concepts of your paper, as well as *Mathematical Reviews* classification numbers of your work.

Graphics files can be included in either LaTeX character graphics format or in PostScript format. To include PostScript files in your document, we prefer the macro commands in the `epsfig.sty`.
