

In the paper *Strong Uniqueness* that appears in *Surveys in Approximation Theory*, **5** (2010), 1–91, we tried to present a complete list of references on strong uniqueness. We also asked the readers for additional references. This file contains such additional references.

D. S. Bridges [1980], A constructive development of Chebychev approximation theory, *J. Approx. Theory* **30**, 99–120.

D. S. Bridges [1982], Recent progress in constructive approximation theory, in *The L.E.J. Brouwer Centenary Symposium*, A. S. Troelstra, D. van Dalen, (eds.), North-Holland, Amsterdam, 41–50.

U. Kohlenbach [1993], Effective moduli from ineffective uniqueness proofs. An unwinding of de La Vallee Poussin’s proof for Chebycheff approximation, *Annals of Pure and Applied Logic* **64**, 27–94.

U. Kohlenbach [1993], New effective moduli of uniqueness and uniform a-priori estimates for constants of strong unicity by logical analysis of known proofs in best approximation theory, *Numer. Funct. Anal. and Optimiz.* **14**, 581–606.

U. Kohlenbach [2008], *Applied Proof Theory: Proof Interpretations and their Use in Mathematics*, Springer Monographs in Mathematics. xx+536 pp.

U. Kohlenbach and P. Oliva [2003], Proof mining in L_1 -approximation, *Ann. Pure Applied Logic* **121**, 1–38.

We thank Ulrich Kohlenbach for bringing these references to our attention. If there are other relevant papers, we will happily add them to this list.

András Kroó and Allan Pinkus
