

*THEORY AND APPLICATIONS OF CATEGORIES*

Volume 3, 1997

Higher dimensional Peiffer elements in simplicial commutative algebras Z. Arvasi and T. Porter	1
Doctrines whose structure forms a fully faithful adjoint string Francisco Marmolejo	24
Note on a theorem of Putnam's Michael Barr	45
Lax operad actions and coherence for monoidal categories, $A_\infty$ rings and modules Gerald Dunn	50
Proof theory for full intuitionistic linear logic, bilinear logic, and MIX categories J. R. B. Cockett and R. A. G. Seely	85
The reflectiveness of covering morphisms in algebra and geometry, G. Janelidze and G. M. Kelly	132

Crossed squares and 2-crossed modules of commutative algebras, Zekeriya Arvasi	160
Monads and interpolads in bicategories, Jürgen Koslowski	182
On Property-like Structures, G. M. Kelly and Stephen Lack	213
Closed model categories for $[n, m]$ -types, J. Ignacio Extremiana Aldana, Luis J. Hernández Paricio and M. Teresa Rivas Rodríguez	251
Multilinearity of sketches David B. Benson	269

THEORY AND APPLICATIONS OF CATEGORIES (ISSN 1201-561X) will disseminate articles that significantly advance the study of categorical algebra or methods, or that make significant new contributions to mathematical science using categorical methods. The scope of the journal includes: all areas of pure category theory, including higher dimensional categories; applications of category theory to algebra, geometry and topology and other areas of mathematics; applications of category theory to computer science, physics and other mathematical sciences; contributions to scientific knowledge that make use of categorical methods.

Articles appearing in the journal have been carefully and critically refereed under the responsibility of members of the Editorial Board. Only papers judged to be both significant and excellent are accepted for publication.

The method of distribution of the journal is via the Internet tools `WWW/ftp`. The journal is archived electronically and in printed paper format.

**Subscription information.** Individual subscribers receive (by e-mail) abstracts of articles as they are published. Full text of published articles is available in .dvi and Postscript format. Details will be e-mailed to new subscribers and are available by `WWW/ftp`. To subscribe, send e-mail to `tac@mta.ca` including a full name and postal address. For institutional subscription, send enquiries to the Managing Editor, Robert Rosebrugh, `rrosebrugh@mta.ca`.

**Information for authors.** The typesetting language of the journal is  $\text{T}_{\text{E}}\text{X}$ , and  $\text{L}^{\text{A}}\text{T}_{\text{E}}\text{X}$  is the preferred flavour.  $\text{T}_{\text{E}}\text{X}$  source of articles for publication should be submitted by e-mail directly to an appropriate Editor. They are listed below. Please obtain detailed information on submission format and style files from the journal's WWW server at URL `http://www.tac.mta.ca/tac/` or by anonymous ftp from `ftp.tac.mta.ca` in the directory `pub/tac/info`. You may also write to `tac@mta.ca` to receive details by e-mail.
